Objective

Motivated Computer Science Engineering student with knowledge of Python, Full Stack Web Development, MySQL, and web technologies. Seeking an entry-level Software Developer role where I can apply my technical skills, solve real-world problems, and contribute to innovative software solutions while continuously learning and growing.

Education

2023-2027	B.tech in Computer Science and Engineering, <i>Medicaps University</i> , Indore
2023	Class XII (Higher Secondary), <i>Success Higher Secondary School</i> , Shamgarh, 75%
2021	Class X (Secondary), <i>Higher Secondary School</i> , Baghuniya, 94%

Technical Skills

Languages	Python, JavaScript
Frameworks	React.js, Node.js, Express.js
Databases	MySQL
Developer Tools	Git, GitHub, VS Code, leetCode
Libraries	Pandas, Matplotlib, BeautifulSoup, Selenium

Projects

Jan 2026 – Jul 2026	E-Commerce Price Comparator, <i>HTML/CSS, JS, Python, MySQL</i> ◦ [Work in Progress] Developing a web application to compare prices across e-commerce platforms like Amazon, Flipkart, and Myntra. ◦ Provides a unified platform for users to efficiently compare product prices, features, and availability. ◦ Designed and developed a responsive frontend (HTML/CSS/JS) and a robust backend (Python).
Sep 2025–Nov 2025	Product Data Aggregator, <i>Python, MySQL</i> ◦ Built a responsive frontend utilizing HTML, CSS, and JavaScript, powered by a Python backend. ◦ Implemented MySQL database management to securely store structured product data and user credentials. ◦ Engineered data fetching from multiple platforms, displaying results in a structured format to aid purchasing decisions.
Jan 2024–Mar 2024	Real-Time Price Tracker, <i>React, Node, MongoDB, Puppeteer</i> ◦ Developed a MERN stack web application for real-time product price comparison across e-commerce platforms. ◦ Implemented web scraping (Puppeteer/Cheerio) to fetch live data and integrated RESTful APIs. ◦ Designed an interactive frontend with React and Redux for efficient state management. ◦ Optimized backend queries in MongoDB to handle high-frequency data updates.

- Developed a responsive personal portfolio website.
- Showcases education, skills, projects, certificates and contact information.
- Deployed using GitHub Pages.

Technical Competencies

Programming & Application Development

- Developed a MERN stack Price Comparison Application to aggregate real-time product data.
- Integrated Python web scraping (BeautifulSoup/Selenium) to fetch and compare live prices.
- Built a React frontend with search filters and a Node.js/MongoDB backend for efficient data management. *Data*

Extraction & Scraping, *Python, Flask, BeautifulSoup*

- Built a scraping engine (BeautifulSoup/Selenium) to extract live pricing from Amazon and Flipkart.
- Designed a Bootstrap frontend allowing users to search products and view side-by-side comparisons.

Software Engineering

- Gaining practical knowledge of core software principles, including Agile methodologies and UML diagramming.

Interests

Web Scraping & Automation, API Integration, Real-time Data Processing, Full-stack Development

Certifications

- Alteryx Designer Core Certification (2026)
- Alteryx Essentials Certification (2026)
- HTML & CSS – Great Learning
- JavaScript – Coursera
- Python – Infosys Springboard

Portfolio Project

- Integrated GitHub, LinkedIn, Resume and Certificate sections.

Languages

- English
- Hindi
